PROFILE

Final-year Computer Science student at Taylor's University, specialising in Artificial Intelligence. Passionate about AI research, machine learning systems, and full-stack development, driven by genuine curiosity than just academic requirement. Originally from Bangladesh, bringing cross-cultural adaptability and strong independence. Actively seeking an internship to contribute technically in a real team environment.

EDUCATION

Taylor's University **Bachelor of Computer Science (Specialization in Artificial Intelligence)**

2024-2027

CGPA : 3.75 (current) | Dean's Lists : Semester 1, 3, 4, 5, 6

Relevant Courseworks: Data Analytics, Machine Learning, Parallel Computing, Computer Vision, Natural Language Processing, Cognitive Computing and Applications, Big Data Technologies, Data Structures and Algorithms, Human Computer Interaction, Database Systems, OOP, Advanced Programming, Discrete Structures, Operating Systems, Computer Networks, Systems Fundamentals, Computer Architecture & Organization, Principles of Software Engineering

Earth House School **International A-Levels**

2022-2023

Physics A*, Mathematics A, Economics B

Earth House School **IGCSE**

2022-2023

Mathematics B, Further Pure Mathematics, Economics, English Language B, Physics, Chemistry: 9 (A*), Bengali: 8 (A*)

TECHNICAL SKILLS

- Languages: Java, JavaFx, C++, Python, SQL, HTML/CSS, Bash, R
- AI/ML : NLP, Computer Vision, RAG Pipelines, Deep Learning, DRL, PyTorch
- Web & Frameworks : Next.js, React, FastAPI, Node.js, Tailwind CSS, REST APIs
- Data & Infra : PostgreSQL, MongoDB, Pinecone (Vector DB), Redis, Docker, Pandas, NumPy, Matplotlib, Streamlit

PERSONAL SKILLS

- Leadership
- Management Skills
- Time Management
- Cross – cultural communication
- Independent research
- Adaptability
- Technical Documentation

PROJECTS

DRL for Medical Image Segmentation (ongoing)

Python · PyTorch · Deep Reinforcement Learning · FastAPI · React

Built a DRL-based segmentation system for MRI/CT scans with an LLM diagnostic assistance layer via LangChain. – Deployed as a web application enabling real-time image upload, inference, and annotated output visualisation.

RAG KnowledgeBase Assistant

Python · LangChain · OpenAI API · Pinecone · JavaFX

Built an end-to-end RAG pipeline for natural language Q&A over user-uploaded PDF documents with source citation. – Delivered as a desktop application via JavaFX with vector storage handled through Pinecone.

Family Business E-Commerce Website

Next.js · Tailwind CSS · Prisma · PostgreSQL · Cloudinary · Vercel

Designed and deployed a full e-commerce platform handling product listings, cart functionality, and order management. – Sole developer across design, development, and deployment in a live environment with real customers.

Bursa Stock Anomaly Detection System

Python · Scikit-learn · MLflow · FastAPI · Docker · GitHub Actions

Built an end-to-end anomaly detection pipeline with automated nightly retraining and MLflow experiment tracking. – Implemented CI/CD deployment gates blocking promotion if validation score drops below production baseline.

WORK EXPERIENCE

Sarzan Textiles 2023 – Present	Junior Director Directorship position in a family-owned textile manufacturing business, providing exposure to supplier relationships, production workflows, and financial oversight in a live business environment.
Muskaan Boutique 2021 – 2023	OnlineBusiness Manager and Web Developer Managed social media presence, product listings, customer interactions, and order coordination across online platforms. – Built and deployed a small-scale company website, gaining first hands-on web development experience in a live business context.
Private Coaching School 2020 – 2023	Part Time Teacher Mentored 25+ students across elementary to pre-university level, covering IGCSE and IAL curricula. – Developed strong communication and explanation skills through consistent one-on-one and group teaching.

COURSES & CERTIFICATIONS

AI for Data Visualization – CodeAcademy (2025), Java – Oracle (2024) *, Amazon AWS (2024)*, CISCO PT (2024) *, Trailblazer Salesforce (2024) *,HTML & CSS CodeAcademy (2019)

EXTRA CURRICULAR

- Agents of Tech, Taylor's University – Active member, attending industry talks, tech workshops, and networking sessions focused on emerging technologies and AI trends.
- Taylor's Bangladesh Student Society – Long-term member, contributing to cultural events and community building within the international student community.
- SUNS Hiking Club – Frequent participant in organised trail hikes, developing resilience and team cohesion outside of academic settings.
- Volleyball, Cricket and Badminton Clubs, Taylors University –Active participant in weekly sessions, maintaining consistent team engagement and competitive discipline alongside academic commitments.
- Runners – up in Bangladesh National Volleyball Federation U – 18 tournament (2019).
